If you require additional support please contact us [here](#) and a representative will contact you shortly.

- Go to your Magento Admin Panel and under the “System” menu, choose “Magento Connect Manager”

The screenshot displays the Magento Admin Panel interface. At the top, the 'System' menu is open, showing a list of options including 'My Account', 'Notifications', 'Tools', 'Web Services', 'Design', 'Import/Export', 'Manage Currency', 'Transactional Emails', 'Custom Variables', 'Permissions', 'Magento Connect Manager', 'Cache Management', 'Index Management', 'Manage Stores', 'Order Statuses', and 'Configuration'. The 'Magento Connect Manager' option is highlighted with a blue background. Below the menu, the main dashboard area is visible, featuring a 'Choose Store View' dropdown set to 'French', and three summary cards: 'Lifetime Sales' showing '\$0.00', 'Average Orders' showing '\$0.00', and 'Last 5 Orders' which is currently empty with the message 'No records found.'.

- On the Extensions screen use the 2<sup>nd</sup> option on the “Direct package file upload” section of this page. Click “Choose File” navigate to the extension on your computer (WindroseGlobalEcommerce.tgz) then press “Upload”.

The screenshot displays the Magento Connect Manager interface. At the top, the logo reads "Magentoconnect MANAGER". Below the logo, there are two tabs: "Extensions" and "Settings". To the right of the tabs are two links: "Return to Admin" and "Log Out".

The main content area is divided into several sections:

- Settings:** This section contains two options:
  - Put store on the maintenance mode while installing/upgrading/backup creation
  - Create Backup Database
- Install New Extensions:** This section contains two numbered steps:
  - 1 Search for modules via [Magento Connect](#).
  - 2 Paste extension key to install: [input field] **Install**
- Direct package file upload:** This section is highlighted with a red box and contains two numbered steps:
  - 1 Download or build package file.
  - 2 Upload package file: **Choose File** No file chosen **Upload**

5. In a few moments the upload will be completed. You will know the upload is complete when the green text in the black text box at the bottom of this page stops updating.

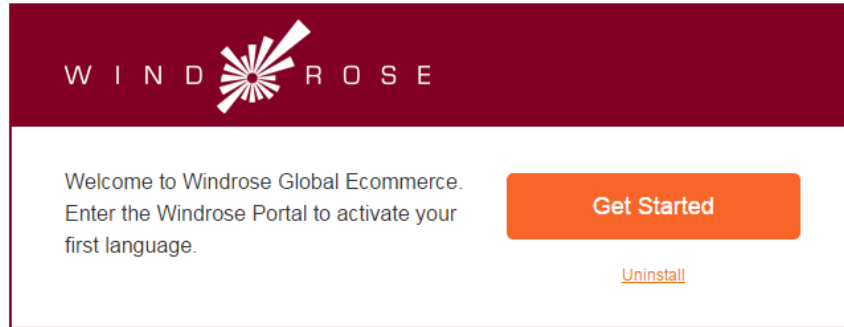

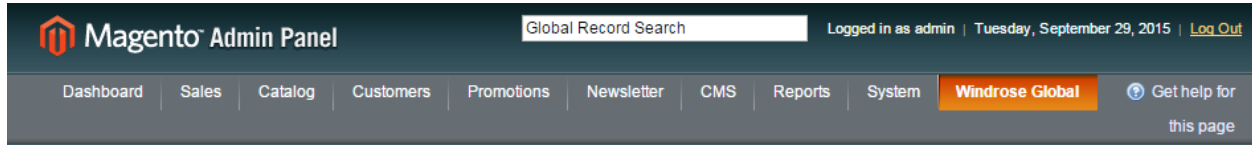

Auto-scroll console contents

```
Package installed:  
community windroseGlobalEcommerce 1.0.0  
  
Cleaning cache  
...  
Cache cleaned successfully
```

Procedure completed. Please check the output frame for useful information and refresh the page to see changes.

Refresh

- When upload is complete Return to the Magento Admin Panel (you may be required to sign in again). You will now see an additional menu item named Windrose Global, select this then select “Get started” and you will enter the Windrose management portal.

7. You may now follow the “EASY SETUP WIZARD” choose your store type and the language your store is now.

- Filipino
- Yiddish

Start

9. You will be asked to confirm your choice

10. Clicking “Preview Installation” in the next step will take you to your store home screen. After 30 second countdown you will see your home screen translated and a link to return to the portal.

SUCCESS!

After clicking the button you will be taken to your homepage and we will begin the translation process. This process takes only 30 seconds. After you see the translation of your homepage come back to the portal to complete the installation.

Preview installation

11. Finish the installation by selecting one of the two options provided.

YOU HAVE CHOICES!

**Windrose Standard:** Each time a webpage is visited by anyone the Windrose app will “read” the page and translate it. The next time the page is viewed or refreshed the translation will be available for that page.

Depending on the amount of text, this translation process can take a few moments to a few minutes per page. If you choose to, you can browse pages on your site yourself, to pre-translate them.

There is no additional cost to continue with this method.

Continue with Standard

**Windrose Premium:** This paid premium feature “reads” every page on your site and translates it automatically. The price includes 3 million characters which is enough to do a very large store. Any leftover characters will remain in your inventory for use with website additions or additional languages.

This is a one-time charge above the monthly app and language fees.

Enable Premium \$90 USD

This can be activated later in the Shop Windrose section.
